DON'T MISS THIS FREE PROMO DEADLINE!

You know it. We know it. Your new products and technologies are the biggest reasons why thousands of full-time farmers travel to New York Farm Show from all over the Northeast and Canada. So help us help you boost your visibility at the 38th show — Feb. 22, 23 and 24, 2024 — **for free!**

As co-sponsor, *American Agriculturist* puts 39,000 copies of the official New York Farm Show program in the hands of all visitors — plus all farmers receiving the magazine. And, we feature them on the magazine's website. That's **triple coverage in advance!** Plus, we **quadruple coverage** with the *New York Farm Show.com* website. Here's a sample of how we showcase new products and technologies.

'Max' your visibility

It's a great opportunity that's easy — and free.

Just email details about

your most important new product for the show on the accompanying sheet, plus a high-resolution (greater than 1 MB) color jpeg photo to chris.torres@farmprogress.com. **This must be the first time you're introducing that product at New York Farm Show.** Sorry, we can't print from product brochures.

Send your new product info to us **no later than Thursday, Dec. 7.** Submit them now — long before the Christmas rush arrives. One crucial tip: If you pass this up through your corporate channels, make sure your marketing communications lead delivers it. See you at New York Farm Show!

New products waiting for you!

NEWLY 680 exhibitors will roll out a host of new equipment, plant products and technologies targeted for Northeast farmers and livestock producers at the New York Farm Show. Here are details, submitted by exhibitors, on a few items that may hold your curiosity.

Print this article. Circle products you're most interested in seeing, and bring your copy to the show. Exhibit locations are listed at the end of each item. The listing codes are: CP (Center of Progress), HT (Horticulture Building), I (International Pavilion), D (Dairy Building) and S (Science Building).

Can't attend the show? Contact the person listed with the item or a local dealer for more information.

4wd utility vehicle
Club Car/Sachs Salas' 4x4 utility vehicle features all-wheel-drive, loadlink,

tors, spacers and combines via hydraulic or electric steering interfaces. Contact: Adrien Gramman, 315-504-0807. Booth: CP-123.

Bunker cover and barrier
Pak Farm's Polyflex 2500 COT barrier is a polyethylene sludge bunker cover with a designated oxygen barrier for oxygen installation. The oxygen barrier clings to sludge, separating it from the water pre-tentative cover to produce higher-quality sludge. Contact: Eddie Trona, 612-926-8391. Booth: CP-176.

Calcium crop nutrient
Farming Solutions/Agri-Dynamics introduces Calobriolite, a calcium-enriched blend of geothermic limestone, kelp and fish meal, ocean water extracts, copper, iron, molasses, and humic acids for foliar crop application to improve yield and fruit development. Contact: Snyas Kunkle, 855-734-2616. Booth: D-226.

Call milk taxi
Call Star's Milk Taxi 3.0 makes calf feeding easier with larger tanks, new dispensing display, multi-locks, larger wheels, auto-matic draining and even LED drying lights for after-disk feeding. Contact: Tom Chalk, 800-866-2485. Booth: HT-85.

Compact water drinker
DLS Farm Solutions' Normandy livestock waterer is made to fill with a more portable tube or maintain a constant water level. The compact HDPH drinker can be installed with or without the stand to suit the animal type and size. Contact: Mark Wencott, 318-666-1684. Booth: HT-331.

Crop sprayer
Iro Manufacturing's F1800 Series crop sprayer has a 1,000-gallon tank, 60-hp air-dielectric boom and a 100-gallon tank

microchip technology to monitor activity, illumination and temperature, and then communicate that information via computer and smartphone. Contact: William Pisk, 402-256-6002. Booth: D-226.

Dairy waterbed
Ryder Supply introduces Advanced Comfort Technology's CC waterbeds, a premium water bladder dairy bedding system with two isolated chambers. One is for the cow's knees and hocks; the other is for her body. Booth: HT-813.

Disk mower-conditioner
Vermeer's M3C300 mower-conditioner equipped with the all-new Q3 disk cutter bar reduces horsepower requirements. It

and a hard surface model for greater wear life on concrete and asphalt. Contact: Jay Southard, 864-279-0156. Booth: D160.

Automatic feeding system
Lafly Vector auto make-feeding system works 24/7 to put fresh feed from lower silage to feed bunkers in front of dairy cows and heifers. It saves feed, 500 hours of labor and up to 1.28 gallons of diesel fuel per year for current users. Contact: Alvin Santos, 461-621-2706. Booth: HT-893.

Autosteer guidance
Ag Junction's e-drive X3 and e-drive X2 auto-steer guidance systems from Outback Guidance provide countersteer accuracy with wide compatibility for trac-

to 27 feet on the go, thanks to a double hydraulic track arm system. Unlike a roller, the energy converter fits any instead of

ing it. Booth: S-HCC.

Ground-tracking loader
Pottinger's HT 547 loader puts four Dyna-Drive's high-productive work with perfect ground tracking and load po-

section of the stand and forage. Its jockey wheel can be tilted forward, backward, left or right. Contact: Sabina Hunkeler, 219-510-5534. Booth: HT-POV.

Heavy-duty wheel loader
Tracy Road Equipment introduces the Lashburn 512, a wheel loader using 25% less diesel fuel than comparable ma-

chine. Its continuously variable transmission opens well with the 161-hp Tier 3 6.6L-cylinder engine. Contact: Scott Thayer, 315-427-1471. Booth: CP-45.

High-density round baler
Haber Brothers introduces the Krone Contourline round baler, which eliminates the need for a conditioner. The P53X features the EasyFlow picking that's 20% faster. Its NowStrip elevator tears up rubber-treated plastic bales with horizontal slats to roll dramatically higher bales denser. 4.5-tee side and up to 60 inches high. Contact: Paul Mahle, 315-487-7891. Booth: HT-45.

Ballast regrass
King's AgNexus introduces Kingfisher 400g ballast regrass, a nitrogen-fixing, just-blend, spring-seeded. It can produce several cuttings of high-quality forage. An organic option is available. Contact: Rod Porter, 717-687-6224. Booth: D-228.

LED light fixture
Orion Energy System's energy-saving Ag LED light fixture is IP67-rated and is well-suited to withstand demanding interior environments. With up to 28,300 hours of use and 50% energy savings, it's ideal for broodmare barns and milking parlors. Contact: Richard Hill, 855-596-2577. Booth: D10.
