DON'T MISS THIS FREE PROMO DEADLINE!

You know it. We know it. Your new products and technologies are the biggest reasons why thousands of full-time farmers travel to New York Farm Show from all over the Northeast and Canada. So help us help you boost your visibility at the 37th show — Feb. 23, 24 and 25, 2023 — **for free!**

As co-sponsor, *American Agriculturist* puts 39,000 copies of the official New York Farm Show program in the hands of all visitors — plus all farmers receiving the magazine. And, we feature them on the magazine's website. That's **triple coverage in advance!** Plus, we **quadruple coverage** with the NewYorkFarmShow.com website. Here's a sample of how we showcase new products and technologies.

'Max' your visibility

It's a great opportunity that's easy — and free. Just email details about

your most important new product for the show on the accompanying sheet, plus a high-resolution (greater than 1 MB) color jpeg photo to chris.torres@farmprogress.com. **This must be the first time you're introducing that product at New York Farm Show.** Sorry, we can't print from product brochures.

Send your new product info to us **no later than Tuesday, Dec. 6.** Submit them now — long before the Christmas rush arrives. One crucial tip: If you pass this up through your corporate channels, make sure your marketing communications lead delivers it. See you at New York Farm Show!

New products waiting for you!

NEARLY 600 exhibitors will roll out a host of new equipment, plant products and technologies targeted for Northeast farmers and livestock producers at the New York Farm Show here in detail, submitted by exhibitors, on a few items that may tickle your curiosity. Print this article. Circle products you're most interested in seeing, and bring your copy to the show. Exhibit locations are listed at the end of each item. The building codes are: CP (Center of Progress), HF (Horticulture Building), I (International Pavilion), D (Dairy building) and S (Diverse building).

Can't attend the show? Contact the person listed with the item or a local dealer for more information.

4wd utility vehicle
Clay Car/Star Sales' 4x4 utility vehicle features all-weather handbrake, tires, sprayers and combines via hydraulic or electric steering interfaces. Contact: Adrian Gramann, 315-759-0887. Booth: CP-123.

Bunker cover and barrier
Poly Guard's Polyflex S-102 barrier is a polyethylene stage bunker cover with a long-span oxygen barrier for easy installation. The oxygen barrier clings to stage, separating it from the protective cover to produce higher-quality silage. Contact: Eddie Toms, 612-280-8391. Booth: CP-178.

Calcium crop nutrient
Farming Solutions' Agri-Dynamics introduces Cal-Sentinel, a calcium complex blend of geothermic limestone, kelp and fish meal, ocean water extracts, compost tea, molasses, and humic acids for fuller crop application to improve root and fruit development. Contact: Tony Kunkle, 565-734-3018. Booth: S-726.

Calf milk taxi
Call Star's Milk Taxi 3.0 makes calf feeding easier with larger tanks, new dispensing display, more tanks, larger wheels, automatic chaining, and even LED feeding lights for after-dark feeding. Contact: Tom Clark, 338-9886. Booth: HF-28.

Compact water drinker
D.L. Barn Solutions' Normandy livestock waterer is made to fit with a more push tube or maintain a constant water level. The compact HFPE drinker can be installed with or without the stand to suit the animal type and site. Contact: Mark Woodcutt, 514-666-1484. Booth: HF-531.

Crop sprayer
Jm Manufacturing's F1800 Series crop sprayer has a 1,000-gallon tank, 60-hp air-side boom and a 100-gallon rice system. It's equipped with Micro Trac or Topcon automatic chemical injection controls. Contact: Benoit Blank, 717-768-0747. Booth: S-558.

Cow monitoring system
Select Site Power's Cow Manager is a continuous monitoring system using ear-tag microchip technology to monitor activity, rumination and temperature, and then communicate that information via computer and smartphone. Contact: William Flick, 802-258-0662. Booth: S-278.

Dairy waterbed
Ryder Supply introduces Advanced Center Technology (ACT) waterbeds, a premium water bladder dairy bedding system with two isolated chambers. One is for the cow's knees and hocks; the other is for her body. Booth: HF-613.

Disc mower-conditioner
Vermeer's M1200 mower-conditioner equipped with the all-new Q3 disk cutter bar reduces horsepower requirements. It allows for a 30% increase in cutting width. Contact: Scott Thayer, 514-424-4171. Booth: CP-45.

Double-chain conveyor idler
Jolly Manufacturing's double-chain poly conveyor now has a spring-loaded idler end. It's designed to minimize manual adjustment. Contact: Terry Nienhaus, 304-623-2943. Booth: CP-131.

Front-mounted hay rake/merger
BOC S2's RT300 merger can be front-mounted on a tractor or windrower and can change operating widths from 19 feet to 27 feet on the go. Thanks to a double hydraulic rock arm system, unlike a rake, the merger conveyor lifts hay instead of dragging it. Booth: S-40C.

Ground-tracking loader
Ponteringer's HT4.5ST loader puts four Dyna-Track tires to highly productive work with perfect ground tracking and ideal protection of theeward and forage. Its jockey wheel can be shifted forward, backward, left or right. Contact: Salwa Barakawa, 215-510-5534. Booth: HF-707.

Heavy-duty wheel loader
Tracey Road Equipment introduces the LaBriere 542, a wheel loader using 25% less diesel fuel than comparable machines. It continuously variable transmission opens well with the 5010 Pwr 41 four-cylinder engine. Contact: Scott Thayer, 514-424-4171. Booth: CP-45.

High-density round baler
Maize Brothers introduces the Krone Comperta round balers, which eliminate the need for a cam track. The F155X features the EasyFlow pickup that's 30% faster. Its Nowe-Grip elevator teams up rubber-treated fabric belts with horizontal slats to roll dramatically higher bale densities 4 feet wide and up to 60 inches high. Contact: Paul Maize, 314-682-7891. Booth: HF-44.

Italian regassa
Killy AgriBios introduces Kingfisher Allpro Italian regassa, a tetraploid diploid hybrid Spring-onion. It can produce several cuttings of high-quality forage. An organic option is available. Contact: Rod Porter, 714-687-0224. Booth: D-225.

LED light fixture
Orion Energy System's energy-saving AG LED light fixture is PMS-rated and LE, not rated without demanding interior environments. With up to 263,000 hours of use and 50% energy savings, it's ideal for livestock barns and milking parlors. Contact: Richard Hill, 855-836-2577. Booth: I-31.

Official Program/New Product Section Request
It's your **FREE** opportunity to promote a new product
In our multi-level marketplace!

Deadline is Tuesday, Dec. 6, 2022! But don't wait!
Early new product entry guarantees you'll be included.
